EXPERIENCE

Solverix Technologies Pvt. Ltd.
Andheri, Mumbai

MERN Full Stack Developer
Oct 2025 – Present

- Built a production-grade **Factory Dispatch Automation System** using **React.js, Node.js, Express.js, and PostgreSQL**.
- Engineered **40+ production REST API endpoints** for authentication, business management, reporting, validation, authorization, database transactions, and error handling.
- Designed REST APIs and PostgreSQL schemas using **Prisma ORM**.
- Integrated **Docker** deployment and IoT devices to support automated factory operations.

Oxstren Wearable Technologies Pvt. Ltd.
Mumbai, India

Full Stack Developer
Sep 2024 – Oct 2025

- Contributed to **6+ full-stack projects** using React.js, Node.js, Express.js, MongoDB, and PostgreSQL, developing responsive interfaces and backend services.
- Engineered and integrated **40+ REST API endpoints** with JWT authentication, RBAC, request validation, and database operations for business workflows.
- Developed **20+ responsive React.js screens and dashboards** using reusable components and dynamic API-driven functionality.

Innovins Technologies
Mumbai, India

Associate Software Engineer
June 2023 – Sep 2024

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js.
- Optimized frontend components and assets, improving application performance and reducing page load time by **30%**.
- Assisted in backend development using Node.js and Express.js, including **API integration** and troubleshooting.
- Collaborated with development teams to debug, test, and maintain web applications using Git and GitHub for version control.

PROJECTS

Visiblo AI | AI-Powered Local SEO SaaS Platform | Live Project

- Contributed to an AI-powered SaaS platform supporting **3 business functions**: local SEO management, customer review monitoring, and business automation.
- Developed reusable UI components and dashboards focused on responsivness, maintainability, and consistent user experience.
- Integrated RESTful APIs for front-end/back-end communication, business workflows, and application data management.

Koniwala Matrimonials CRM | *NestJS, React, PostgreSQL, Prisma, Redis* | Live Project

- Developed a matrimonial CRM supporting member onboarding, profile management, and administrative operations.
- Built **8 dashboard sections** covering profile shortlisting, critical alerts, follow-up management, team activity, agency performance, employee monitoring, and AI suggestions.
- Developed **3 CRM modules** for AI-assisted matchmaking, WhatsApp profile capture, and employee attendance, integrating NestJS REST APIs, PostgreSQL, and Prisma ORM.

Aadhaar Voting System | *Blockchain, React, Node.js, OTP Authentication* | GitHub Repo

- Developed a blockchain-based voting application for recording votes and enforcing one-vote-per-user validation.
- Implemented Aadhaar-linked OTP verification and voter eligibility checks as part of the authentication workflow.
- Built responsive voting interfaces supporting candidate management and vote submission.

EDUCATION

University of Mumbai
2021 – 2024
