EXPERIENCE

Solverix Technologies Pvt. Ltd.
Andheri, Mumbai

MERN Full Stack Developer
Oct 2025 – Present

- Built a production-grade **Factory Dispatch Automation System** using **React.js, Node.js, Express.js, and PostgreSQL**.
- Engineered **40+ production REST API endpoints** for authentication, business management, reporting, validation, authorization, database transactions, and error handling.
- Integrated **Docker** deployment and IoT devices to support automated factory operations.

Videowaves
Mumbai, India

Full Stack Developer
Sep 2024 – Oct 2025

- Developed an internal **Customer Relationship Management (CRM)** system using React.js, Node.js, Express.js, and PostgreSQL to streamline client information management and business workflows.
- Coordinated with clients and stakeholders to gather requirements, translate business needs into technical solutions, and deliver application enhancements.
- Designed and integrated backend API services with PostgreSQL to support structured data storage, retrieval, and CRM.
- Troubleshot application issues, maintained existing features, and delivered enhancements based on business and client requirements.

Innovins Technologies
Mumbai, India

Associate Software Engineer
June 2023 – Sep 2024

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js.
- Optimized frontend components and assets, improving application performance and reducing page load time by **30%**.
- Collaborated with development teams to debug, test, and maintain web applications using Git and GitHub for version control.

PROJECTS

Maldives Experts | Full-Stack Travel Booking Platform | Live Project

- Implemented customer booking management REST API endpoints and backend service logic, strengthening booking workflows with security and financial-integrity validations.
- Developed React-based booking and administration components, including an invoice management page, booking detail views, and customer invoice-loading states.
- Improved deployment reliability by optimizing CI/CD artifact transfers, implementing code-splitting, and resolving build-memory and production configuration issues.

Koniwala Matrimonials CRM | *React, PostgreSQL, Prisma, Redis* | Live Project

- Developed a matrimonial CRM supporting member onboarding, profile management, and administrative operations.
- Built **8 dashboard sections** covering profile shortlisting, critical alerts, follow-up management, team activity, agency performance, employee monitoring, and AI suggestions.
- Developed **3 CRM modules** for AI-assisted matchmaking, WhatsApp profile capture, and employee attendance, integrating NestJS REST APIs, PostgreSQL, and Prisma ORM.

Aadhaar Voting System | *Blockchain, React, Node.js, OTP Authentication* | GitHub Repo

- Developed a blockchain-based voting application for recording votes and enforcing one-vote-per-user validation.
- Implemented Aadhaar-linked OTP verification and voter eligibility checks as part of the authentication workflow.
- Built responsive voting interfaces supporting candidate management and vote submission.

EDUCATION

University of Mumbai
2021 – 2024

AMITR College of Engineering
Mumbai, India

Bachelor of Engineering in Computer Engineering

TECHNICAL SKILLS

Frameworks & Libraries: React.js, Node.js, Express.js, NestJS, Redux Toolkit, Tailwind CSS
Programming & Web Languages: JavaScript (ES6+), TypeScript, SQL, HTML, CSS
Databases & ORMs: PostgreSQL, MongoDB, Redis, Prisma, Mongoose
Developer Tools: Git, GitHub, Docker,VS Code, Antigravity
